Company Infrastructure

We are professionally managed Software Development Company servicing clients all over the India & abroad. Spanixo was formed with a clear goal to provide quality software development services. We are equipped nearly every software development requirement:

- Modern office set-up at Kinfra Advanced Technology Park
- Latest hardware and licensed software
- Reserve employee resource pool
- Redundant power backups through Generators and inverters
- Data backup systems and redundant backup servers
- Secure access for all employees.

Mission

Provide cost effective high quality innovative solution & services, anchored on our basic principles of:

- **Explore**
- **Innovate**
- **Improve**

The strong R&D team of Spanixo is constantly working to upgrade existing solutions and develop new products. Spanixo is transparent and accountable to customers, shareholders, partners, and employees and strives to deliver on commitments and results.

Our Values

Spanixo respects and seeks to maintain the highest standards of fairness, equality, integrity, and honesty

- Total customer satisfaction, continuous improvement and total involvement.
- Constantly and consistently deliver products and services of highest quality.

Quality Policy

Spanixo is committed to providing products and services of the highest possible standards to satisfy our customer expectations of quality, reliability and service. With total customer satisfaction as our quality policy objective, we have well defined and documented quality standards. Procedures have been laid down for project management, the entire Software Development life Cycle, monitoring customer relationships, and human resources management. In each phase of the Software Development life Cycle, there are processes for inspection & reviews, documentation, configuration management and change management.

Spanixo recognizes that the diligent operation of a Quality Management System leads to efficient and effective performance of work activities with minimum errors.

IT Services

Premier Support Plus provides faster issue resolution, protects your investment, and prevents IT issues before they become problems.

Software Solutions

Spanixo offers scalable end-to-end application development and management solutions from requirement analysis to deployment and rollout.

Web Solutions

As an all-in-one solutions provider, our team of professionals cover all aspects of website creation from design and development to optimisation and hosting. Our services range from one page adverts to full e-commerce online stores and all our packages are upgradeable to meet your exact business requirements.

Application Maintenance & Support

We provide startups, mid-size companies, and enterprises with end-to-end application support and maintenance to ensure business resilience and continuous growth under any circumstances.

Quality Assurance & Testing

Software testing is the best measure to proactively take care of your expensive software investments. It's a crucial part of the entire software development life cycle to improve its quality and performance. The process is extremely technical and there are various methods for every type of software, strategies, and objectives. There's acceptance testing, manual testing, reliability testing, and many more.

IT Services

Software Solutions

Spanixo has developed a number of products and applications for its clients in this service. Our mature software development processes, combined with excellent infrastructure have significantly increased the “on-time and on-budget” delivery of software in the offshore mode. We use a highly effective methodology for offshore and distributed software development. our services begin from analysis, moving through designing, development, testing and implementation to maintenance. our applications come in all sizes, be it a one-table database, or a massive client-server application. The creation of complete database applications is yet another field that we specialize in.

We offer:

- Application Development
 - Custom Application Development/ Maintenance
 - MIS and ERP Solutions & Support

IT Services

Application Development

- Custom Application Development/ Maintenance

It is a well known fact that some of the ready-made, packaged applications have failed to meet the requirements of the customers because of their unique needs and differing business practices and processes. In addition, prohibitive cost of implementing a packaged application and the maintenance thereafter becomes an unwelcome perspective.

We have experienced .T. Consultants for project analysis, formulation and concept planning, right up to project management and installation. We develop customized Software that is completely based on user's requirement with GU (graphical user-friendly interface) on any of the mentioned platform / languages.

IT Services

Application Development

- MIS and ERP Solutions & Support

We offer customized low cost solutions to industries based on open standards, contemporary technologies and maintenance support. While incorporating the best of business practices, we do take special care of the customer requirements.

ERP Solutions include the development of software in a distributed model, with some phases of the project being conducted on site and others being conducted offshore. Each phase is uniquely defined and executed. After unit, and system testing the product is then sent to the client for acceptance testing. We have satisfied customers find the solutions user friendly, flexible, and comprehensive.

IT Services

Web Solutions

Spanixo provides web solutions & services to help customer reach to a wider customer base. The web is a new and different medium for communication and requires a different viewpoint and skill set to use it in the most effective way. our need web consulting to get more return on your investment in your web site. We can help you get the most effective solution through:

- Website Development
- Web Multimedia
- Web hosting
- Web Promotion
- E-commerce
- Search engine ptimization
- Intranet Development

IT Services

Web Solutions

- Website Development

Websites can enhance awareness of your brand, leading to more sales. Build relationships with customers, vendors, and share holders through your online identity get more traffic from the search engines Get more traffic from the search engines, fast loading web pages with excellent navigation and designing, communicate more effectively. Either you are looking for Dynamic site or a static site is your solution we can help you acquire both. We offer web sites on flash, asp, php , React, wordpress which are tailor made to target your customers and make your presence live on web.

- Web Multimedia

Add video on your web site or have a complete flash web site and see your popularity ranking high.

IT Services

Web Solutions

- Web Promotion

We can promote your site to acquire more traffic, more enquiries, more leads, and more value. Web promotion is a three phase process and we are your companion to see you through all the phases and that too very well. We get your site listed at the most popular internet directories because they can send you substantial amounts of traffic and affect your ranking in various search engines. Email marketing is a great way to promote your electronic Shop to buyers including those who are interested in your shop but have not purchased items from you in the past.

- Web hosting

We provide service to host your own website, and users with online systems for storing information, images, video, or other content accessible via the World Wide Web. We offer 10 B, 50 B, 200 B web hosting. We also offer custom web hosting as per your requirements. File Hosting Service: Host your static content, typically large files that are not web pages.

IT Services

Web Solutions

- Search Engine Optimization

our website doesn't mean anything to anyone unless it can be found by your customers. Phase two in Web promotion is optimizing your site so it appears high in the search engines and uses them to bring even more people to your pages. Our Web development and Promotion methodology, caters to the best of breed processes which helps in a successful on-time and above expected delivery. Phase three ensures that your site attracts even more traffic for which our experts go over techniques like reciprocal links, email signatures, newsletter articles and more.

- E-commerce

We offer e-commerce services in custom-built solutions as well as packaged software customizations and implementations. This helps customers to leave their business from point of sale implementation and go global. Our competent management team, good post-sales services, well-organized business structure, network infrastructure and a secured, well-designed website will ensure ripe results on your investment.

IT Services

Graphic & Multimedia Solutions

Each Client is different with his own ideology and vision, so should be his designs. Having done more than 200 design solutions, we lend our services for:-

Logos, Brochures, Advertisements, Corporate Profile Presentation, Product Catalogue, Training/ Tutorials resentation, 2D-3D Animation and Walkthrough.

Re-engineering

Re-engineering is on the agenda of many companies in different industries. Striving to improve business processes to better meet customer requirements, Business Reengineering initiatives aim at revolutionizing key performance criteria, such as cost, delivery, and quality. As this is a top management issue we ensure that the structure, the work-place contents, the information technology in use and the culture of the organization will successfully assimilate the improved processes.

IT Services

Application Maintenance & Support

The quality of product deployment, training and support has everything to do with customer success and satisfaction. We offer annual maintenance plans which are tailor-made as per the client's requirement. If required we depute technical team which works at the client site for the system execution or support as per requirement.

Our clientele includes Government organizations as well. We ensure maximum return on investment to the customer as we provide complete off site telephone support in the form of consultations, assistance and advice on the use and maintenance of the licensed Software. Our experts' providing technical assistance and advice for problem diagnosis and resolution, have gained us admirer world over.

We also offer on-site service calls to Customer's facility. In such cases, our consulting charges are subject to service hour charge, plus reasonable travel and out-of-pocket expenses.

OUR CLIENTS

A true partnership is
a two-way street.

Our clients embrace
this philosophy.

Ideas and information flow openly and regularly, based on a foundation of mutual trust and respect for one another's expertise.

The best and most productive relationships are synergistic and goal-oriented, and a long-term relationship has the value add of deep-rooted industry and company knowledge and relationships.
